¹Percent of graduates who complete bachelor's degrees within 4 years and master's degrees within 2 years. Rates calculated for 2017 graduates based on US Department of Education formula for required disclosures under 34 CFR

§668.6, <http://www.federalregister.gov/articles/2010/10/29/2010-26531/program-integrity-issues#h-123>. The above rates are calculated based on the 2017 calendar year (January 1 - December 31).

*Many university graduates are unavailable for employment. “Graduates unavailable for employment” means graduates who, after graduation, die, become incarcerated, are called to active military duty, are international students that leave the United States or do not have a visa allowing employment in the United States, or are continuing their education at an accredited or bureau-approved postsecondary institution. The majority of university students are unavailable to graduate due to them being international students and having visa restrictions.
